HATCHGrab Plans and features

Generated 2026-10-09

Your first 3 months are completely free — every feature unlocked.

With Pay at Hatch, customers order ahead and pay when they collect, so you can take online orders without connecting a card processor at all. Prefer to take payment up front? Add online card payments any time. When your trial ends you move to Pay as you go — no monthly fee — unless you choose a plan. No card to start, no contract, cancel anytime.

Small print

* Plus Stripe's card processing on online card orders (currently TBC in Ireland), paid to Stripe, not HatchGrab. Walk-up orders use your own card reader — HatchGrab charges 0%.

[1] Kitchen ticket printing needs a compatible Bluetooth or wired printer (not supplied).

[2] WhatsApp auto-replies need a WhatsApp Business account. Meta may charge for some messages; replies are generated automatically.

Prices shown as "TBC" are not yet published.

Figures are the published plan terms at the date above and may change. Card processing fees are Stripe's own charge, not HatchGrab's. This document is a summary, not a contract.
